OBJECTIVE

To obtain a position of employment and further experience in frontend, backend, or full stack (MEAN-stack, MERN-stack, MEVN-stack) web development.

SKILLS

- Seven years overall experience in computer programming, across multiple programming and scripting languages, currently focusing on frontend, backend, and full-stack web development (1+ years experience).
- Experience, knowledge, and appreciation in web development technologies, including HTML5, CSS3, SASS/SCSS, Javascript, JQuery, and Typescript.
- Experience in developing Javascript with the ES6/ES2015 language specification and the extended Javascript syntax JSX, including transpiling both with Babel.
- Experience with building single-page web application frontends using ReactJS and Redux.
- Experience with building single-page web application frontends using Angular 4+.
- Developing knowledge with building single-page web application frontends using Vue.js 2.x.
- Experience with preparing, configuring, and building React and Vue web app frontends using Webpack. Developing experience with scaffolding, configuring and building Angular 4 web app frontends using the Angular CLI, and Vue.js frontends using the Vue CLI.
- Experience with developing web application backends using Node.JS, Express.JS, and MongoDB via Mongoose.
- Experience with MongoDB database management using RoboMongo, now called Robo 3T.
- Experience in other programming languages, gained in a prior focus on native software development and game development:
 - Six years of experience and advanced knowledge in C++, particularly the C++11 and C++14 language specifications.
 - Experience with various C/C++ libraries, including SFML, SDL, Lua, and QT.
 - Experience with network programming in C++, using Unix sockets and Winsock.
 - Intermediate experience with other languages, including C, C#, Java, and Lua.
- Experience with Linux-based operating systems, including Ubuntu, Linux Mint, and Arch Linux.

EDUCATION

- 2006 – 2010: High School Diploma

WORK EXPERIENCE

- 2007: Community Service
 - *Lakeland Medical Center – St. Joseph, MI, 40 hours*
- 2013 – Present: Work around the house.
 - *Various paid jobs including: lawn mowing, weed pulling, snow shoveling, etc.*

PERSONAL

I am quiet by nature, but hard-working and quite productive, often seeking social interaction. As a tenacious person, I usually do not stop until the job is done – and done right.
